

HIGH DEFINITION WAX

Quite simply our finest product which imparts the deepest level of shine

The result of over 50 years of product research and development, this expertly crafted wax is individually filled and inspected before being carefully air cooled ensuring it is ready for use on the world's finest vehicles.

High Definition Wax contains a carefully balanced, yet complex blend of polymers, carnauba and microcrystalline waxes.

Surfaces treated with this superior wax enjoy exceptional resistance to environmental contaminants including salt, detergents, UV light, acid rain and industrial fallout. This product is completely free of abrasives, water and emulsifiers.
